

Young people remember their days at school and their relationships with teachers long after they have forgotten the specifics of the formal curriculum. A positive school ethos is central to good experiences and relationships. This handbook contains a wealth of information from schools and other institutions about ways of developing and sustaining a positive ethos. The Ethos Network is proud to leave this resource as a legacy to all our members. We have loved getting to know you and working with you. Our hope is that all schools in Scotland will use and benefit from the information contained in this document.
